

## **Physician Customers To Present Their MEDHOST Experiences At ACEP Scientific Assembly**

### **Emergency physicians to discuss the advantages of using the comprehensive and versatile MEDHOST EDIS**

**ADDISON, Texas – Sept. 29, 2009** – MEDHOST, provider of the leading Emergency Department Information System (EDIS), today announced that Physician Customers will present their experiences using MEDHOST at the ACEP Scientific Assembly, in Boston, Mass., Oct. 5-8 in MEDHOST’s booth (#101). Physician presenters will provide insight to the realities and benefits of deploying MEDHOST in their emergency departments (ED).

Presentations include:

- “Implementing Your EMR.” David Arai, MD, FACEP, chairman of emergency medicine at Centennial Medical Center in Frisco, Texas, will discuss how to avoid pitfalls en route to success Oct. 5 at 10:30 a.m.
- “A Day in My Life.” Robert Sweeney, DO, FACEP, FAAP, MBA, chairman of emergency services at Jersey Shore University Medical Center in Neptune, N.J., will cover the realities of practicing ED medicine with an electronic system Oct. 5 and Oct. 6 at 11:30 a.m. and Oct. 7 at 11 a.m.
- “From Pager to Electronic.” Christopher J. Haines, DO, FAAP, FACEP, director, department of emergency services at St. Christopher’s Hospital for Children in Philadelphia, Pa., will provide a “before and after” synopsis of a Pediatric ED implementation of MEDHOST Oct. 5 and Oct. 6 at 2:30 p.m. and Oct. 7 at noon.
- “The Patient-Centered EMR.” Reece Brockman, II, MD, FACEP, medical director of Texas Regional Medical Center in Sunnyvale, Texas, will discuss how using an EMR can improve patient interaction Oct. 6 at 10:30 a.m. and Oct. 7 at 10 a.m.

MEDHOST’s touch screen design, user-friendly interface and ability to customize content to the site’s needs ensure a short learning curve among physicians, making caring for patients in the ED a lot easier. The EDIS streamlines workflow and boosts productivity, which frees up physicians so they can not only see more patients, but also focus all their attention on patients. For example, MEDHOST’s Order Entry solution enables bedside physician order placement, so physicians are able to spend more time with patients and provide an intimate and positive care experience.
