

MEDHOST®

**Moving to
Continuous
Care Through
Community-
Based Health
Strategies**

A healthcare provider in a white coat and stethoscope is smiling and showing a tablet to an elderly patient. The scene is set in a clinical environment, possibly a hospital or clinic, with a sink and faucet visible in the background. The entire image has a yellowish tint.

WE UNDERSTAND

the needs of today's healthcare provider to
drive clinical excellence and financial success

Delivering unparalleled value for the business of healthcare

New care delivery models and the impact of consumerism are requiring hospitals to transform their operations. To stay competitive in today's market, facilities must focus on extending capabilities across their communities, while also evolving to continuously engage consumers and build brand loyalty. To respond to this market dynamic and building on over 30 years of experience, MEDHOST has evolved its product offering, focusing not only on robust financial and Meaningful Use certified clinical applications, but also chronic condition management and consumer centric applications that drive population health and support a facility's competitive positioning.

Through its comprehensive offering, MEDHOST is uniquely positioned to deliver unparalleled value to our customers around the business of healthcare. Whether the need is for a large corporate multi-facility entity or a standalone, independent facility, MEDHOST's wide range of financial, clinical and consumer engagement solutions are designed to meet the needs of any healthcare provider.

Our offerings reflect a company-wide focus on innovation and assisting our customers in the face of significant challenges created by today's healthcare market. We understand the needs of today's healthcare provider and the new requirements to drive clinical excellence and financial success.

- Marketing Services

Optimize
Healthcare Delivery

Redefining the Enterprise Solution and Addressing the Rise of the Healthcare Consumer

With new collaborative care delivery models, today's healthcare facilities need clinical and financial solutions that go beyond traditional healthcare software while providing integrated engagement tools for consumers.

Manage
The Care Continuum

MEDHOST's redefined enterprise solution expands healthcare engagement strategies across the continuum of care. Our clinical and financial solutions provide operational and clinical excellence, while our YourCareEverywhere Engagement Platform drives continuous patient engagement.

Engage
Consumers

Utilized by over 70 facilities, the YourCareEverywhere consumer engagement platform is one of the few, holistic, EHR-agnostic engagement solutions in the market today. Co-branded for participating facilities, it provides consumers access to daily-updated health news and editorial content, wellness tools such as consumer health device integration and a Meaningful Use certified, clinically-integrated mobile app. ¹Additionally, YourCareEverywhere's Wellness Dashboard facilitates a one stop shop for important healthcare information and the ability to link to any patient portal.

OPTIMIZE HEALTHCARE DELIVERY

Envisioned, developed and implemented
with direct input from clinicians

Advanced Clinical Solutions

Advanced Clinical Solutions were envisioned, developed and implemented with direct input from clinicians and designed to integrate across MEDHOST's Enterprise EHR to enhance the end-user experience.

Financial Solutions

Financial Solutions feature a comprehensive suite of applications from General Financials to Revenue Cycle to Patient Access solutions.

Emergency Department Information System (EDIS)

MEDHOST EDIS has been designed by physicians and nurses on the front line of care. EDIS delivers faster patient throughput utilizing an innovative interface and advanced charge capture for optimized billing.

MEDHOST Perioperative Information Management (PIMS)

MEDHOST PIMS is a comprehensive surgery solution that manages the entire perioperative environment. This integrated solution provides efficiency, streamlined patient tracking, added visibility and anesthesia information management.

Hosted and Managed Services

Hosted and Managed Services provides tools, processes and professional IT expertise to manage the complexities of your technology environment.

A woman with blonde hair is smiling and looking at a laptop screen. The image is overlaid with a green tint. The text 'MANAGE THE CARE CONTINUUM' is written in large, white, bold, sans-serif capital letters on the left side. Below it, the text 'Build your brand into a digital home for healthcare consumers' is written in a smaller, white, sans-serif font.

MANAGE THE CARE CONTINUUM

Build your brand into a digital home for
healthcare consumers

YourCareCommunity Scheduling

YourCareCommunity Scheduling is a tool that enables providers to immediately search availability, schedule and confirm appointments across the continuum of care.

Integration Services

Integration Services removes the burden and expense of managing numerous data feeds. It also helps add new technology quickly and easily while supporting independent data exchange and interface requirements.

Condition Management

Condition Management connects patients and providers outside of the facility - facilitating two-way communication around chronic care and supporting long-term behavior change.

Patient and Provider Portals

Patient portal enables patients to access their personal health information through a Meaningful Use certified web application and mobile app. The provider portal allows clinicians to view patient lists and securely message patients.

ENGAGE CONSUMERS

Health and wellness consumer engagement solution that helps drive continuous engagement in your community

YourCareEverywhere

YourCareEverywhere™ is a health and wellness consumer engagement solution that helps drive continuous engagement and build relationships with patients and consumers in your community. This innovative, web-based and mobile platform helps you build preference with consumers before the need for care so facilities can stay competitive in an evolving market. YourCareEverywhere helps enable Meaningful Use compliance, create brand awareness and strengthen loyalty via a holistic, integrated suite of offerings and services.

YCE Marketing Services

As a part of the YourCareEverywhere Engagement platform, YCE Marketing Services augments and complements existing facility marketing communication and CRM efforts, helping to create efficiencies, increase effectiveness and accelerate speed to market.

¹The modular EHR, YourCareUniverse Health Portal with YourCareEverywhere App 8.0, is 2015 Edition-compliant and has been certified by ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of the U.S. Department of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services or guarantee the receipt of incentive payments.
